

SESSION 3: VULNERABILITY MINI-EXERCISE

Defining Feature or Critical Attribute _____ Table # _____

Names (optional) _____

-
- 1) What are the critical components of vulnerability for the “defining feature” or “critical attribute” in the southern Sierra? Do not try to be exhaustive. Focus on what you consider to be the most important agents of change/stressors and the factors that make the resource exposed, sensitive, and adaptive.**

Exposure (stressors)	Sensitivity	Adaptive Capacity

2) Given the vulnerability of this “defining feature” or “critical attribute” in the S. Sierra, are current management objectives feasible? Why or why not? (Don’t try to be exhaustive. List 1-3 objectives and discuss those).

3) If you answered no above, what should be the “retrofitted objectives” for this “defining feature” or “critical attribute”? (List as many as you want).
