Workshop 2

Register NOW!

November 10, 2016

9:00am-4:30pm

Location: Hopland Research & Extension Center, 4070 University Rd, Hopland, CA 95449

RSVP: <https://www.eventbrite.com/e/inter-tribal-climate-adaptation-leadership-summit-workshop-2-tickets-28514096430>

Details:

Registration is Free, but spaces are limited. First priority to Tribes within and near Sonoma, Lake and Mendocino counties. *Lunch is included.*

What will I get out of it?

This is the second of three workshops to build tribal capacity to incorporate Climate Smart adaptation strategies into project planning and resource management.

Three Workshops topics:

- ◇ Watershed and climate change info and resource sharing (September 16, 2016).
- ◇ **Drafting a Climate Adaptation Plan** (November 10, 2016).
- ◇ Sharing Draft plans and lessons learned. (TBA).

Who Should Attend:

This workshop is intended for Tribal staff and leaders from Tribes interested in developing vulnerability assessments and climate

adaptation plans.

Workshop Description

Participants will learn about the Hopland Research & Extension Center, what projects they're conducting and how they're planning to address climate change. A Climate Change Adaptation Template will be provided during the session to discuss the nuts and bolts of a completed plan. Breakout sessions related to specific tribal concerns and how to address these issues will also be conducted.
