

# Central Valley Landscape Conservation Project

## Draft Priority Natural Resources (8.10.15)

H = High Priority, M = Medium Priority

Sub-Habitats
H: Chaparral and serpentine shrublands
H: Dunes
H: East Foothills Woodland
H: Flooded cropland
H: Floodplain
H: Grasslands
H: Northwest Inner Coast Range Woodland
H: Permanent wetlands
H: Riparian Vegetation/Natural Riverbank
H: San Joaquin Desert
H: Seasonal wetlands and saline playas
H: Southwest Inner Coast Range Woodland
H: Stream Channel
H: Vernal pools and swales
M: Estuarine
M: Semi-permanent wetlands
M: Tidal wetlands and salt marsh

Species Groups
H: Amphibians
H: Burrowing mammals
H: Cavity nesters and roosters
H: Grassland "shorebirds"
H: Kangaroo Rats
H: Mast-associated species
H: Dragonflies and Damselflies
H: Riparian nesting birds
H: Salmonids
H: Songbirds and overwater nesters
H: Vernal pool crustaceans
H: Western bumblebee and pollinators
H: Wetland obligate plants
H: Wetland-dependent mammals
H: Wetland-dependent reptiles
H: Wintering and breeding water birds
H: Wintering shorebirds
M: Native perennial bunch grasses
M: Orcuttia grasses

Individual Species
H: Blunt-nosed leopard lizard
H: Green sturgeon
H: Mallard
H: Pacific lamprey
H: Red legged frog
H: Tricolored Blackbird
H: Valley oak
H: Western burrowing owl
H: Yellow legged frog
H: Yellow-billed magpie
M: Atriplex polycarpa
M: Ephedra californica
M: Hardhead ( <i>Mylopharodon conocephalus</i> )
M: Native clams and mussels
M: Sacramento perch
M: Splittail ( <i>Pogonichthys macrolepidotus</i> )
M: Swainson's hawk
